

SUMMARY

Commercial & Revenue Operations Leader with 20+ years of experience designing and scaling systems, processes, data structures that align planning, execution, channels, and commercialization. Led the commercial operation for a \$200M multi-channel SMB business, owning forecasting, territory design, quota governance, channel economics, launch readiness, and digital transformation across direct, partner, retail, telemarketing, and self-service channels. Combines strategic planning with hands-on operational leadership to accelerate growth, improve productivity, and increase commercial efficiency.

- Scaled a startup from \$5.8M to \$57.8M in four years by leading the design and commercial launch of market-disruptive software and codifying the sales and deployment model across 13 states, positioning the company for acquisition by EDS.
- Owned the commercial infrastructure for a \$200M SMB division across direct, retail, telemarketing, digital, and indirect channels, delivering 5% YoY growth and 104% NRR.
- Reduced the blended Customer Acquisition Cost by 20% by launching digital self-service channels, including an AI-assisted B2B sales app and B2B2C embedded distribution frameworks.

COMPETENCIES

Revenue & Performance	Commercial Governance	Channel & Growth	Data, Automation & AI
• Annual Operating Plan • Territory & Quota Design • Forecasting & Pipeline Gov. • Compensation & Incentives • KPI Development	• Market Commercialization • Launch Governance • Deal Desk & Pricing Gov. • Cross-Functional Gov. • MBR/QBR	• Channel Orchestration • Multi-Channel Architecture • Lead-to-Cash (L2C) Optimization • Self-Service Channels	• Data-Driven Analytics • Dashboard Architecture • Workflow Automation (RPA) • AI-Assisted RevOps • Churn & Retention Analytics

EXPERIENCE

SMB Operations Director

Ooredoo

06/2020 – 04/2026

Doha, Qatar

Direct the commercial infrastructure, revenue systems, and go-to-market execution for a \$200M multi-channel SMB division spanning 150+ personnel across direct, digital, retail, and indirect channels. Architect cross-functional operating frameworks with Product, Marketing, Finance, and Legal to maximize pipeline governance and efficiency.

Forecasting Governance & Commercial Discipline

- Ran the weekly revenue operating cadence covering pipeline inspection, funnel conversion, and manager coaching, anchored by a bottoms-up forecast roll-up with deal-level Commit / Best Case / Upside tagging and monthly variance-to-plan against AOP, driving forecast accuracy to 95% with 3.3x pipeline coverage.
- Institutionalized monthly and quarterly business reviews (MBRs/QBRs) across channel owners, Finance, Product, and Sales leadership, converting performance insights into corrective action plans and investment decisions.
- Stood up Deal Desk and pricing governance, including discount approval framework, non-standard term reviews, and margin guardrails that accelerated complex deals without eroding unit economics.
- Ran structured win/loss analysis programs feeding insights into product, pricing, and enablement curriculum.
- Owned B2B partner commission governance covering quotas, accelerators, clawbacks, SPIFFs, OTE, claims validation, payouts, and cost-of-sales reporting aligned to ARPA, NRR, and new-logo growth.

GTM Planning & Territory Optimization

- Engineered the cross-channel quota cascade, translating the board-approved AOP target into channel-level commitments across direct field, indirect partners, retail, telemarketing, and digital.
- Designed sales territories and quota allocation using GIS-integrated zoning, boosting confirmed market coverage from 62% to 89% in three months.
- Restructured the SMB product portfolio into six needs-based solution areas validated by customer beta testing, creating the standard GTM taxonomy adopted across sales, marketing, and digital.
- Stood up cross-functional launch governance for SMB products, coordinating Product, Marketing, Legal, Finance, and Sales through readiness gates, go/no-go decisions, and post-launch audits.

Channel Commercialization & Revenue Expansion

- Boosted average SMB ARPA by 35% over two years by commercializing managed services (WAF, NGFW, Meraki routers, Smart Wi-Fi, CCTV-as-a-Service, POS), deepening portfolio entanglement with core fixed and mobile products.

- Built an embedded B2B2C distribution channel placing connectivity offers inside third-party customer journeys, capturing +2% fiber market share at near-zero CAC.
- Stood up a high margin data monetization workstream, productizing anonymized segment insights into a privacy-compliant Marketing Campaign as a Service offering.
- Led the SOHO indirect channel partners program, equipping 5 partner firms and 100+ frontline agents with a mobile SFA-enabled connected tablet stack (CRM, CMS, CPQ, e-signature), co-sell playbooks, and commercial bundles that enabled autonomous sales, onboarding, and retention.

Digital Operations & Field Productivity

- Launched a B2B digital self-service app with guided CPQ and AI sales assistants, cutting digital order CAC by 50% and compressing customer onboarding from days to hours.
- Architected a PLM-integrated CMS as the single source of truth for field-ready content, and equipping the salesforce with connected tablets that replaced paper trip sheets with auditable CRM activity data and real-time telemarketing handoffs..
- Consolidated fragmented legacy order forms into a governed digital library featuring embedded data validation, e-signatures, and seamless CRM hand-offs.
- Enriched outbound telemarketing workflows with customer segments, billing data, prior interaction history, and automated routing to the territory agent, lifting outbound sales conversions from 18% to 25%

AI-Native Workflows & Automation

- Deployed a RAG-based AI sales assistant grounded in CRM, regulatory tariff libraries, and product documentation, serving customers, reps, and partners 24/7 across pre-sales, ordering, and support queries.
- Built an AI-enabled content generation engine (CoPilot / Claude) accelerating sales content production, product updates, competitive intelligence, and field communications, reducing launch-to-field readiness cycles.
- Deployed RPA bots to validate partner commission claims against CRM activations and billing, eliminating overpayments and compressing claim-to-payout cycles from weeks to days.
- Deployed an AI/ML churn propensity model, increasing the SMB save-rate from 11% to 18% within one year.
- Stood up a Voice-of-Customer program instrumented across 10 customer touchpoints in Qualtrics with closed-loop NPS/CSAT/CES discipline, feeding retention insights into the weekly revenue cadence and churn propensity model.

Assistant Director Solutions

09/2014 –06/2020

Ooredoo Telecom

Doha, Qatar

- Led technical sales for a \$600M B2B unit — heading a team of sales engineers and solutions architects across bid decision, solution development, proposals, customer presentations, closing, and contract negotiations.
- Drove bid-to-win ratio to 28% by implementing MEDDPICC qualification methodology across the technical sales team — embedding the framework into deal-review coaching, CRM stage gates, and pipeline hygiene discipline.
- Closed a \$50M global secure network for 110 diplomatic missions — backhauling voice, data, and video conferencing — boosting profit margins by 3% through optimized vendor scheduling and partner selection.

Director S&LG Accounts

06/2009 – 09/2014

Electronic Data Systems

Raleigh, NC

- Owned P&L, executive client relationships, and partner/contract management of a portfolio of State & Local Government projects —securing 100% renewal and contract extensions.
- Directed a three-year \$25M Electronic Medical Records modernization at the NC DHHS — supervised HIPAA-compliant COTS customization and rollout across 100 counties with FTEs, partners, and contractors.
- Recovered a \$12M Maryland Retirement Services modernization — negotiated baseline scope, deployed change management, and stood up an offshore development team to deliver against a legacy mainframe environment.

Systems Development Director

08/2002 – 06/2009

Saber Software

Portland, OR

- Scaled annual revenue from \$5.8M to \$57.8M in 4 years spearheading the design, launch, and national rollout of market disruptive Elections Management and Voter Registration system.
- Designed and implemented a deployment blueprint and national sales model across 13 states, directly positioning the company for a successful acquisition by EDS in 2008.

EDUCATION & CERTIFICATION

- MBA, Marylhurst University – Portland, OR
- B.S., Electrical Engineering, Qatar University
- Stanford Certified Project Manager (SCPM)
- PMP, Project Management Institute
